FLOWERS
FOR THE
Hardy Garden

TWIN LARCHES NURSERY
WEST CHESTER
PENNA.

Twin Larches Nursery

The nursery is located near the village of Rocky Hill, about four miles east of West Chester, Pa., and the same distance south of Malvern, Pa. Only a short ride from the Paoli to West Chester state road and the Philadelphia and West Chester pike.

Anyone who is interested in hardy plants is always welcome, and prospective purchasers will find it very satisfactory to make their choice from blooming plants in the field.

Peonies and Irises are generally at their best the first week in June, and the Hardy Phlox is in full bloom the last of July. There is, however a wealth of bloom through the entire season.

Read Before Ordering

FORWARDING—Unless otherwise instructed, all plants will be forwarded by express, purchaser paying charges. If customers wish plants sent by Parcel Post, add 10% to value of order for postage to points east of the Mississippi River and 20% to points west of the Mississippi. (Large plants cannot be sent by mail.)

PRICES—All prices are strictly net.

TERMS—Customers wishing to open an account should send references from other nurserymen; otherwise terms are cash.

REMITTANCES should be made by post office or express money order, registered letter or check, to Twin Larches Nursery.

GUARANTEE—Every effort is made to send out the plants true to name, but if, through error on our part, any plant should prove untrue, we will replace it free of charge. We do not, however, in any way guarantee the success of the grower purchasing stock offered in this list, as failures may be due to causes beyond our control, such as unfavorable weather or soil conditions, or too deep or too shallow planting, etc.

Portion of the Twin Larches Nursery showing some of our Irises and Peonies

The Hardy Garden

In colonial times we possessed many fine hardy gardens; since then we have been slower than the English, both to take up and to discard the bedding-plant craze; even yet it lingers with us to an appalling extent, as anyone can testify who has seen the gaudy expanses of coleus and alternantheras in our public parks. Nevertheless, the revival of interest in hardy plants has been steady. We already have some wonderfully artistic gardens, and, under the influence of our admirable garden-clubs, our gardening publications and our progressive nurserymen and enthusiastic amateurs, there seems to be no reason why a love for flowers should not become as universal here as it is abroad.

(Frank M. Thomas)

Clumps of yellow lilies, lavender iris or chrysanthemums planted in front of your shrubbery, a long border of peonies or phlox or better still a separate garden having all varieties, add a distinct charm to your home that can be gained in no other way.

The following plant list is made up of stock ready for sale this year, and I can vouch for the genuine worth of every plant offered. I intend never to include a perennial that for some reason is undesirable or even mediocre. I send out strong **field grown plants** as I find these give far more satisfactory results than pot grown, especially if planted when dormant in early spring and fall.

Preparation of the Soil

I can not advise too strongly a thorough preparation of the ground before the plants are set out. Everyone who can afford it should remove the soil to the depth of two feet then fill in the whole depth with top soil mixed with one-third well rotted manure. Prepared in this way the borders will need no extra fertilizer for several years and will also encourage the plants to send out very deep roots, thus giving them a reserve of strength and moisture to withstand a long, dry spell. I do not, of course, mean that one can have no success with perennials without doing this, on the contrary many flowers will make a brave showing in ground that has received no more than a thorough spading up. However the improvement from extra preparation will be quite out of proportion to the labor and expense involved.

Late September and early October are the best times to plant the majority of perennials. Planted then they will make some root growth before winter. In the spring, April planting is advisable.

Wait until the ground freezes hard before protecting the garden for the winter with three or four inches of loose stable litter. The purpose of the mulch is not to keep the plants from freezing but to **keep them frozen**. It is the alternate freezing and thawing or water standing on them that plays havoc.

Achillea (Milfoil or Yarrow)

	Each	Three	Doz.
EUPATORIUM. Deeply cut leaves, stiff upright stems supporting broad flat heads of brilliant yellow flowers; unusual and effective. 4-5 feet. July and August	\$.25	\$.60	\$2.00
MILLEFOLIUM ROSEUM. Rosy pink form of native yarrow. 1-2 feet. July to October25	.60	2.00
PTARMICA, THE PEARL. A mass of tiny double white blooms; indispensable for cutting. 1-2 feet. July to October30	.75	2.50

Alyssium (Rockwort)

SAXATILE COMPACTUM. Mass of tiny fragrant yellow flowers. 10 inch. May30	.75	2.50
--	-----	-----	------

Anchusa (Alkanet) : biennial

DROPMORE. Tall branching spikes of blue flowers. 4-5 feet. May and June25	.60	2.00
---	-----	-----	------

Anthemis (Marguerite)

KELWAYI. Effective lemon yellow daisy; fine for cutting. 2 feet. July to September35	1.00	3.00
--	-----	------	------

Asclepias (Butterfly Weed)

TUBEROSA. Umbels of bright orange flowers, very striking; fine for cutting. 1-2 feet. July and August50	.75	2.50
---	-----	-----	------

Aquilegia (Columbine)

No other flowers, not even greenhouse orchids, can rival the Aquilegias in grace of outline, or delicacy of structure. Easily grown, big clusters of bloom; honey-like fragrance. Will do well in shade or sun.

LONG-SPURRED HYBRIDS. All delicate colors. 2 ft. May and June	25	.60	2.00
---	----	-----	------

Aster (Hardy Michaelmas Daisy)

	Each	Three	Doz.
NOVAE-ANGLIAE. Thick stiff stems holding immense heads of deep purple flowers. 5 ft. September25	.60	2.00
CLIMAX. Strong branching growth covered with rich lavender flowers. 5 ft. September25	.60	2.00
TARTARICUS. Distinct variety; coarse leaves and tall stiff spikes of lavender flowers. 5 ft. October25	.60	2.00

Astible Spiraea

Astibles will grow in almost any situation; a rich, moist soil will show them at their best. The bronzy green fern-like leaves grow to a luxuriant size and the plants send up many a feathery spike.

GRUNO. A bright salmon pink, tall branching habit; the finest variety yet introduced. 3 ft.75	2.00	6.00
ARENDSI, SAMON QUEEN. Splendid habit; large fleecy pink plumes held high above the foliage. 2½ ft. June..	.50	1.40	5.00
MOERHEIMI. Branching creamy white spikes of bloom; bronzy green foliage. Very fine. 2½ ft. July75	2.00	6.00
JAPONICA, QUEEN ALEXANDRIA. Graceful spikes, pale rose pink flowers. 18 in.50	1.40	5.00
JAPONICA, GLADSTONE. White upright blooms; good foliage. 18 in.50	1.40	5.00

Aconitum (Monkshood)

SPARK'S VARIETY. Unique violet blue flowers, shiny green foliage. Does best in shade. 3-4 ft. July and August	.35	1.00	3.00
FISCHERI. Dwarf variety with pale blue flowers. 18 in. September35	1.00	3.00

Baptisia (Hardy Lupine)

AUSTRALIS. Spikes of deep steel blue pea-shaped flowers; very attractive foliage. Will grow well in partial shade. 2½ ft. June30	.75	2.50
---	-----	-----	------

Boltonia (False Chamomile)

LATISQUAMA. Single pink aster-like flowers. 5-6 ft. September25	.60	2.00
ASTEROIDES. Mass of green foliage covered with hundreds of tiny white flowers. 5-6 ft. September25	.60	2.00

Cerastium (Snow-in-Summer)

TOMENTOSUM. Covered with fragrant white blooms; attractive silvery grey foliage; neat habit. 8 in. June30	.75	2.50
--	-----	-----	------

Convallaria (Lily of the Valley)

MAJALIS. One of the best loved and most fragrant of hardy plants. Set out a patch of it in the full sun and see it at its best. It also blooms well in shade. 8 in. May. Clumps30	.75	2.50
--	-----	-----	------

Coreopsis

Its hardiness, freedom of bloom, and robust, yet graceful habit combine to make it one of the most useful garden flowers.

	Each	Three	Doz.
GRANDIFLORA. Daisy-like flowers in deep pure yellow. 2 ft. June to October25	.60	2.00

Chrysanthemum : Hardy varieties

These are particularly rich in bronzy yellow and dull reds, shades suggestive of autumn tones. Clumps scattered at intervals through the borders will brighten the whole garden in the days of approaching winter.

MAID OF KENT. White button, glossy green foliage ..	.30	.75	2.50
BROWN BESSIE. Mohogany red button. Very satisfactory25	.60	2.00
LILLIAN DOTY. Tall pink pompon, very fine35	1.00	3.00
TWIN LARCHES. Pale yellow turning to pure white, large loose flowers borne on long graceful sprays, very hardy ..	.25	.60	2.00
SELINA. Dark shade of lilac, tall growing, fine foliage .	.25	.60	2.00
PINK BUTTON. Quaint and old fashioned; early30	.75	2.50
ROSE PINK. Shading old rose in center; tall, large flowers30	.75	2.50
BRONZE POMPON. Very fine30	.75	2.50
SCOTLAND. Clear yellow. Very hardy30	.75	2.50
YELLOW BUTTON. Foliage almost evergreen. Late blooming30	.75	2.50
EARLY RED. Large flowers; copper red. 18 inches30	.75	2.50
DAISY. Single white, very hardy. Like a Shasta Daisy	.30	.75	2.50
LAVENDER. Large flowers, lavender pink, strong stems, early30	.75	2.50

Chrysanthemum Maximum (Shasta Daisy)

ALASKA. Very large, handsome, pure white flowers of fine form borne on strong stems above shiny dark green foliage; will not run wild. 12-18 in. July to September30	.75	2.50
--	-----	-----	------

Delphinium (Hardy Larkspur)

This is one of the few plants that possesses a stately upright growth without the least suggestion of stiffness. They furnish our main reliance in blue of different shades.

BELLADONNA. Sky blue. 3-4 ft. June and August ..	.30	.75	2.50
BELLAMOSA. Deep blue. 3-4 ft. June and August ..	.35	1.00	3.00
MIXED HYBRIDS. Various shades and forms. 3-4 ft. June and August35	1.00	3.00
CHINENSE. Deep lustrous blue, finely divided foliage, spreading panicles of flowers; very hardy. 2 ft. June and July30	.75	2.50
CHINENSE ALBUM. White, similar in form to the Chinense blue. 2 ft. June and July30	.75	2.50

Dianthus (Pinks and Sweet Williams)

	Each	Three	Doz.
There always seems a subtle flavor of olden times about Pinks and Sweet Williams, a quaint primness and delicious spicy scent that calls up visions of earlier days.			
PLUMARIUS (Clove Pink). Mixed varieties25	.60	2.00
BARBATUS (Sweet William). Your choice of "Newport Pink" or deep maroon red25	.60	2.00
DELTOIDES (Maiden Pink). A profusion of small, single, rosy, pink flowers. 8 in. June and July30	.75	2.50

Digitalis (Foxglove)

PINK. Striking stately spikes of bloom immense downy leaves. Although Digitalis is a biennial it reseeds itself and is very satisfactory in a hardy garden. 3-6 ft. June30	.75	2.50
---	-----	-----	------

Dicentra

SPECTABILIS (Bleeding Heart). One of the most showy old-fashioned flowers with rosy crimson, heart-shaped blooms and delicate foliage60	1.60	5.00
--	-----	------	------

Eupatorium (Hardy Ageratum)

COELESTINUM. Tiny lavender flowers, borne in clusters, very attractive. 2 ft. August and September30	.75	2.50
---	-----	-----	------

Ferns : Hardy Native Varieties

ASPIDIUM ACROSTICHOIDES (Wood Fern). An evergreen species with deep green divided fronds. Should be planted in the shade. 12 in.25	.60	2.00
ASPLENIUM FELIX FEMINA (Lady Fern). Grows in shade or sun. Large and handsome but delicate in structure. 2½ ft.25	.60	2.00
REGALIS (The Royal Fern). Wonderful in damp places; very striking in color contrast. 3 ft.30	.75	2.50

Funkia (Plantain Lily)

SUBCORDATA GRANDIFLORA. Large white flowers, broad green leaves. Does best in shade. 2 ft. August and September30	.75	2.50
COERULEA. Blue flowers; broad green leaves. June..	.30	.75	2.50
VARIEGATA. Blue flowers; variegated foliage. 2 ft. August30	.75	2.50

Gaillardia (Blanket Flower)

GRANDIFLORA. A daisy-like flower of brilliant and barbaric coloring; yellow with red center. 2 ft. July to October30	.75	2.50
---	-----	-----	------

Gypsophila (Baby's Breath)

PANICULATA FLORE PLENO. Rounded mass of grey green flower stems holding hundreds of minute white flowers. 3 ft. July and August30	.75	2.50
--	-----	-----	------

Hemerocallis (Day Lily)

To get the characteristic effect of fountain-like foliage and swaying long stemmed blooms they should be planted in good-sized masses.

	Each	Three	Doz.
APRICOT. New; rich, deep golden yellow, large flowers of great substance. 2 ft. June25	.60	2.00
THUNBERGII. Long, pale yellow flowers on tall, graceful stems. 4 ft. July and August30	.75	2.50
FLAVA (Lemon Lily). Clear lemon yellow; fragrant. 3 ft. May and June30	.75	2.50
QUEEN OF MAY. One of the finest; often a dozen flowers on a stem; clear yellow. 4 ft. May35	1.00	3.00
FLORHAM. A beautiful variety; deep yellow. 4 ft. July30	.75	2.50
LUTEOLA. Fine, robust grower, often fifteen flowers to a stem; orange yellow. Fragrant. 4-5 ft. July and August30	.75	2.50
CITRINA. New, Japanese; interesting and distinct; very fragrant, long, narrow flowers, shaded green on outer side. 3½ ft. July and August40	1.00	3.00
MIDDENDORFIANNA. Rich orange color. Flowers borne on stems just a little higher than the slender green foliage. The earliest of them all30	.75	2.50
FULVA. Coppery orange shaded crimson. The rich, tawny color looks well against dark green shrubbery. 4-5 ft. July and August25	.60	2.00

Hollyhocks (Althea Rosea)

DOUBLE PINK. State'y and indispensable. 6 ft.30	.75	2.50
DARK RED. Clear color25	.60	2.00

Heuchera (Coral Bells)

SANGUINEA. Bright coral-red bells. 1-2 ft. June to September30	.75	2.50
---	-----	-----	------

Helenium

AUTUMNALE RUBRUM. A splendid new variety; deep red changing to terra-cotta. 5-6 ft. September30	.75	2.50
--	-----	-----	------

Helianthus (Hardy Sunflower)

MISS MELLISH. Very attractive, yellow daisy-like flowers; leafy stems. Will grow in any location. 6-8 ft. August and September25	.60	2.00
---	-----	-----	------

Hepatica (Liver-leaf)

TRILOBA COERULEA. A pretty native spring flowering plant with lavender blue flowers; attractive trilobed foliage. Does well in shade. 4 in. May30	.75	2.50
--	-----	-----	------

Iberis (Hardy Candytuft)

SEMPERVIRENS. Most desirable dwarf plant covered with a sheet of white flowers. 8 in. May30	.75	2.50
--	-----	-----	------

Iris, Flag, or Fleur-de-lis (German Iris)

Amateurs who devote their time and enthusiasm to gathering a collection of greenhouse orchids had far better turn their attention to Iris. Here is a plant as hardy as a dandelion yet which offers a wealth of beauty in a variety and range of color that is almost endless. They are effective in masses, fringing the shrubbery border, or in good-sized clumps in the mixed border. With care in selecting the varieties the blooming season may be greatly lengthened.

S refers to the standards or erect petals.

F refers to the falls or drooping petals.

May Flowering Varieties

	Each	Three	Doz.
AMAS. S—Bright violet blue. F—Deep violet, immense flowers30	.75	2.50
BLUE FLAG. Deep blue, very well known25	.60	2.00
DOROTHEA. Milky white suffused lavender, very large flowers. 18 in.30	.75	2.50
FLAVESCENS. Pale creamy yellow, free-flowering, sweet-scented30	.75	2.50
PURPLE KING. Dark violet purple; striking30	.75	2.50
ATROVIOLACAE. Deep purple, dwarf. 6-8 in.30	.75	2.50

June Flowering Varieties

ALBERT VICTOR. Rich lavender deeper than Dalmatica but with narrower petals; tall30	.75	2.50
AUREA. Rich chrome yellow, flowers of perfect form... ..	.30	.75	2.50
ALCAZAR. S—Light bluish violet. F—Deep purple with a bronze veined throat; striking30	.75	2.50
ARCHEVEQUE. S—Deep violet. F—Deep purple violet; 18 in.40	1.00	3.00
CAPRICE. Rich rosy claret. 18 in.30	.75	2.50
DELILAH. S—Creamy white. F—Bright blood red; unusual40	1.00	3.00
CRIMSON KING. Deeper color and larger flowers than the "Blue Flag"; tall30	.75	2.50
DELICATISSIMA. S — Deep lavender. F — White, densely penciled and dotted lavender at edges; tall30	.75	2.50
DONNA MARIA. Pale lilac with distinct orange beard, white effect. 18 in.30	.75	2.50
DARIUS. S—Canary yellow. F—Light purple fading to border of cream; distinct30	.75	2.50
ELDORADO. S—Yellowish bronze shaded heliotrope. F—Bright violet purple touched with yellow40	1.00	3.00
FAIRY. One of the best whites; deep orange beards; tall25	.60	2.00
FRANK M. THOMAS (Thomas 1922). S—Flushed lavender violet. F—Cream white; vigorous growth; glistening white effect; very fragrant. 3 ft.	1.75	5.00	—
HER MAJESTY. S—Pale lilac-pink, veined deeper pink; tall30	.75	2.50
IRIS KING. S—Lemon bronze. F—Velvety maroon red, margined yellow; brilliant; tall30	.75	2.50
ISOLINE. S—Lilac pink. F—Shaded purplish old rose; golden at throat; tall40	1.00	3.00
LEONIDAS. Immense flower; soft, silvery lilac; tall; very fine40	1.00	3.00
MAD. PACQUITTE. Rich rosy claret; large flower30	.75	2.50

	Each	Three	Doz.
MRS. NEUBRONNER. Rich chrome yellow; slightly deeper tone than Aurea30	.75	2.50
MAORI KING. S—Brilliant yellow. F—Velvety crimson; striking variety, dwarf30	.75	2.50
MAD. CHEREAU. Porcelain with a frill-like border of blue; the finest of Irises; tall30	.75	2.50
MRS. HORACE DARWIN. White, slightly veined violet, early, free flowering30	.75	2.50
MONTEZUMA. S—Deep golden, minutely dotted brown. F—Yellow and white veined, purple and dotted brown. 18 in.	.40	1.00	3.00
MRS. ALAN GRAY. Delicate pale lilac-pink; an exquisite color; early40	1.00	3.00
MANDRALISCAË. Rich violet blue. Fine clear color, nearest to the color of the Delphinium Bellamosum; tall30	.75	2.50
MINNEHAHA. S—Creamy white, shaded yellow. F—Creamy white, heavily reticulated maroon; fragrant40	1.00	3.00
NAVAJO. S—Light bronze, yellow shaded lavender. F—Deep maroon heavy veined white and yellow; very unusual. 18 in.40	1.00	3.00
NUÉE D'ORAGE. S—Slaty grey blue with bronze shading. F—Violet; vigorous30	.75	2.50
PRINCESSE VICTORIA LOUISE. S—Lemon-yellow. F—Light reddish purple, bordered cream; very vigorous30	.75	2.50
PROSPER LAUGIER. S—Dark fawn and carmine violet softly clouded. F—Deep velvet carmine; immense flowers30	.75	2.50
PALLIDA DALMATICA. Soft, pure lavender; a flower of beauty beyond praise; tall30	.75	2.50
QUEEN OF MAY. The first of the "pink" Irises and still one of the best; tall30	.75	2.50
QUAKER LADY. S—Smoky lavender shaded yellow. F—Blue to old gold. Beautiful flower, looking as if lighted by golden flush from within30	.75	2.50
RHEIN NIXE. S—Pure white. F—Violet, edged white; a very fine and striking Iris; tall30	.75	2.50
ROSE UNIQUE. S and F—Bright violet rose; early ..	.30	.75	2.50
TWIN LARCHES (Thomas 1922). S and F—Flushed and veined purplish lilac on cream; amber glow at center; vigorous growth; very free flowering. 30 in.	1.00	2.50	8.00

Iris Kaempferi (Japanese Iris)

There is a prevalent idea that the Japanese Iris is hard to grow, but with a little care it is as easily grown as any hardy plant. The flowers are truly glorious, overtopping all other Iris in the opulent richness of their blooms. The foliage is longer and narrower than the bearded varieties and stands erect in sheaves instead of spreading out in fans. August and September are the best times to plant. If left till later, they will be sure to be heaved out of the ground by the frost and killed. They like water during the blooming season — a thorough soaking will suffice, but should not be planted where their crowns will be covered with water in winter.

HO-O-JO (Syn. Oriole). Six petals; rich, reddish purple with yellow blotches30	.75	2.50
O-SHO-KUN. Six great deep blue petals; very fine75	2.00	6.00
SANO-WATASHI. Six great white drooping petals; very fine30	.75	2.50
STRIPED VIOLET. Violet over white; six petals; very showy and attractive30	.75	2.50
PANSY PURPLE. Purple with white markings; six petals40	1.00	3.25

Siberian Iris

The grass-like leaves and numerous graceful flowers distinguish the Siberian from all the other Iris families. The flowers are smaller and more numerous than other Irises and have a great deal of delicate charm. Very useful for cutting and massing in the garden or along banks of streams. Very hardy and does well in partial shade.

	Each	Three	Doz.
ORIENTALIS (Syn. <i>Sanguinea</i>). Intense violet blue; a splendid plant. 2½ ft. May and June30	.75	2.50
ORIENTALIS SNOW QUEEN . Pure ivory white; a lovely flower. May and June30	.75	2.50
EMPEROR . Intense violet blue; flower much larger than the preceding. 4-5 ft. June50	1.35	4.50
PSEUDO-ACORUS (<i>Yellow Water Flag</i>). Very slender and graceful petals. 3 ft. May and June30	.75	2.50
SPURIA . Lavender-blue petals the falls having bright yellow markings. 3-4 ft. June40	1.00	3.25

We have the finest varieties of Irises and Peonies and many other perennials in large clumps. These are best for immediate effect or extensive mass planting. Let us quote prices.

Linum (Flax)

PERENNE. Very attractive, both in foliage and bloom. Flowers, pale blue on slender stems. 2 ft. June to October ..

	Each	Three	Doz.
.....	.25	.60	2.00

Lobelia

CARDINALIS (*Cardinal Flower*). Rich, fiery red flowers borne on sturdy spikes. Does well in moist soil. 2-3 ft. August

	Each	Three	Doz.
.....	.30	.75	2.50

Monarda (Bergamot)

DIDYMA, CAMBRIDGE SCARLET. Brilliant crimson-scarlet flowers. 2-3 ft. July and August

	Each	Three	Doz.
.....	.25	.60	2.00

Myosotis (Forget-me-not)

ALPESTRIS. Delightful sky blue flower. Needs plenty of moisture. 10 in. June to September

	Each	Three	Doz.
.....	.30	.75	2.50

Papaver Orientale (Oriental Poppy)

When the hairy four-lobed calyx splits and drops off the opening flowers, it is one of the most curious sights of the garden. Even a small clump of these huge flowers is an inspiring sight. Flowers are 4-5 inches across. 2-4 ft. high. They should be planted when dormant in August or September or very early in the spring.

MRS. PERRY . Clear, bright, salmon pink30	.75	2.50
PERRY'S WHITE . Pure paper white with reddish black blotches at base of petals40	1.00	3.25
GOLIATH . Bright orange scarlet30	.75	2.50

Penstemon (Beard Tongue)

BARBATUS TORREYI. Dark green foliage; spikes of bright scarlet flowers. 2-3 ft. June to August

	Each	Three	Doz.
.....	.25	.60	2.00

PEONIES

The time honored and ugly way of growing peonies in stiff clumps in the middle of the lawn is happily on the wane. Beautiful and effective ways of using them are many. Their full beauty is brought out best when planted in long, separate borders, arranged in sweeping curves against a background of dense evergreens or shrubs. If such borders can be made near the house so much the better. They are also very charming bordering each side of a broad grass walk.

Everyone who has seen an extensive collection of Peonies will have noticed the surprisingly large number of undesirable shades. This list is planned to avoid all offensive shades, yet still to keep a wide variety of coloring, and is also arranged so that in every shade there are both expensive and moderate priced sorts of first-class quality. Peonies are best planted in September, though this may be done in early spring with good results.

They appreciate rich soil but dislike fresh manure. Plant so the eyes are only 2 inches below the surface and 2½ feet apart.

All varieties large and double, except where noted.

White Varieties

	3-5 eyes	5-9 eyes
ALBATRE (Crousse). Center petals edged crimson; tall; sturdy; midseason	\$.80	\$1.60
BARONNESS SCHRODER (Kelways). Blush white, very fine, late ..	1.50	3.00
COURONNE D'OR (Calot). Enormous flowers; late75	1.50
DUCHESS DE NEMOURS (Calot). Pure white crown, sulphur white collar; early65	1.25
FESTIVA MAXIMA (Meilliez). Grand old variety; early65	1.25
LA ROSIER (Crousse). Pure white, creamy yellow center petals; unusual; midseason	1.25	2.50
MADAME EMILE LEMOINE (Lemoine). Finest milk white semi-rose type; midseason	1.50	3.00
MARIE JAQUIN (Verdier). Large, semi-double, like a water lily; exquisite; midseason	1.00	2.00
MARIE LEMOINE (Calot). Very large, deliciously fragrant; low growing; late75	1.50
WHITTLEYI (Whitley). Medium size, blush white to sulphur; early50	1.00

Pale Pink Varieties

ASA GREY (Crousse). Flesh pink flecked deeper shade; semi-double midseason	\$1.75	\$3.50
ALBERT CROUSSE. Pale, clear shell pink; fragrant; very late	1.50	3.00
EUGENE VERDIER (Calot). Pale hydrangea pink; heavy stem; midseason	1.50	3.00
GRANDIFLORA (Richardson). Lovely shade of flesh pink, fading to white; very late	1.50	
HUMEI CARNEA (Guerin). Flesh color; late75	1.50
MAD GEISSLER (Crousse). Rose pink to white; spreading habit; fragrant; midseason	1.00	2.00
MAD. LEONIE CALOT (Calot). Delicate rose white, deeper color in center; spreading in habit; early75	
MADAME DE GOLHAU (Calot). Very large; soft salmon pink; very late	1.25	2.50

	3-5 eyes	5-9 eyes
MARGUERITE GERARD (Crousse). Beautiful shade of soft salmon, distinct; late; semi-double	1.25	2.50
MME. EMILE GALLEE (Crousse). Pale shell pink, fading to milk white opalescent; late	1.00	2.00
MONS JULES ELIE (Crousse). High crown of pale lilac rose, collar of shaded amber yellow; early	1.20	2.50
SULLY PRUDHOMME (Crousse). Large, uniform pale hydrangea pink fading to white; fragrant; midseason	1.60	3.00
TRIOMPHE DE L'EXPOSITION DE LILLE (Calot). Large, compact hydrangea pink flower; midseason85	1.75

Phlox Decussata (Hardy Phlox)

The mainstay of the garden in summer and early autumn; the great value of phlox is in composing color effects, and in this it has a greater range of usefulness than any other perennial. The splendid white varieties are most necessary as peacemakers between the brilliant colors. September is the best time to plant; set the eyes about two inches below the surface of the ground, they will be less likely to suffer from drought. Give plenty of manure and water to have them bloom at their best.

Keep seed from falling and there will be no trouble with the good varieties "reverting" to common magenta.

	Each	Three	Doz.
LOKI. Deep salmon pink; low grower; very showy ...	\$.40	\$1.00	\$3.25
LE MAHDI. Reddish purple with metallic reflections; the darkest of them all30	.75	2.50
